Piping/Ducting is a comprehensive industry standard piping/ducting software that includes components of pipe identification, pipe drafting, piping calculations, piping equipment maintenance and repair, as well as pipe code compliance. It is the most comprehensive solution to the piping and ducting market. P&D modules offer a unique interface to the users – CAD-based information. Piping/Ducting offers the following features: Complete piping/ducting models in VERTEX, 3D and 2D Pipe identification using PipeCAM® : complete set of drawings to support all piping/ducting projects Pipe CAD including accurate, reliable pipe dimensioning, pipesheets and arcing, and selection of standard pipe parts Structural and piping calculations for residential, commercial and industrial projects Pipesheets and pipe components Piping system maintenance including pressure integrity Code compliance Piping/ducting structural analysis Pipe installation and assembly Pipe labelling Computer-aided drafting (CAD) support History Piping/Ducting was first introduced in 1989 as a pipe dimensioning and routing software package. It was introduced as a standalone CAD pipe analysis program first in 1992. In 1996, the product was adopted by mechanical engineers as a structural engineering tool and released as Structural Engineer's version. After 3 years of development and improvements, in 1999, Piping/Ducting was released as a CAD-based structural analysis product. The engineers who pioneered the original PipeCAM® technology, Camtech Corporation, Inc., was acquired by Microsoft in 2005 and Piping/Ducting was acquired by Microsoft in 2006. Piping/Ducting Full Suite 2011 introduced AutoCAD Pipe and Ducting 2011 module. Piping/Ducting 2012 module introduction, Pipe and Ducting 2012 module was the first module to support AutoCAD 2013. Piping/Ducting 2014 module introduced with a new name, Ducting and Structural Analysis 2016. The new name was created to ensure users that Ducting and Structural Analysis is the new name for Piping/Ducting. Piping/Ducting 2014 software suite was also renamed to Piping/Ducting 2015.
